

VARSHINI P

Cambridge Institute of Technology (North Campus) | Bengaluru, Karnataka | +91 87920 17573 | varshinipgowda06@gmail.com

CAREER OBJECTIVE

A dedicated and inquisitive second-year Computer Science and Engineering student with a solid grounding in programming logic, data structures, and software development practices. Eager to secure an entry-level opportunity where I can apply my technical foundation, sharpen my problem-solving abilities through real-world exposure, and grow steadily as a contributing member of a dynamic engineering team.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science & Engineering

Cambridge Institute of Technology (North Campus), VTU

Year of Passing: 2028

CGPA: 8.4 / 10

TECHNICAL SKILLS

- Programming Languages: C, C++, Java, Python (basic)
- Data Structures: Arrays, Linked Lists, Stack, Queue, Trees
- Web Technologies: HTML, CSS (basics)
- Tools: VS Code

ACADEMIC PROJECTS

Student Performance Prediction (2024)

Technologies: Python, Scikit-learn, Pandas, Ensemble Learning, GridSearchCV, EDA

- Studied student data closely to find patterns and remove noisy or repetitive information; built a combined machine learning model achieving 92% accuracy on new data; found the key factors affecting academic performance to help guide useful interventions.
- Presented model results as simple, clear explanations for non-technical audiences, connecting findings directly to real decisions and outcomes.

Trader Behaviour & Market Sentiment Analysis (2025)

Technologies: Python, Pandas, SQL, Seaborn, Hypothesis Testing

- Studied over 50,000 trading records to find gaps between market sentiment and price movement; built simple features to track patterns over time and how different factors were related — leading to useful trading insights.
- Used statistical testing to check whether sentiment truly relates to price changes; created clear charts to explain findings and support business decisions.

INTERNSHIP / TRAINING

Data Science Program – Kshitij, IIT Kharagpur (in association with 1stop)

Duration: 10th April 2026 – 10th June 2026

- Completed a structured Data Science program covering core concepts and practical exercises.
- Gained exposure to data analysis workflows and problem-solving techniques used in real-world data science tasks.

CERTIFICATIONS

- Artificial Intelligence Fundamentals – IBM SkillsBuild (Aug 2025)
- Programming in C – Infosys Springboard (Dec 2025)

SOFT SKILLS

- Problem-solving
- Teamwork
- Communication Skills
- Time Management
- Adaptability

CO-CURRICULAR ACTIVITIES

- NSS Volunteer
- Participated in coding contests
- Technical Workshops

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.
